Software Development as a Service™

Your Trusted Outsourcing Partner

A Better Way to Develop and Maintain Your Software Product

delaplex Software provides dedicated resources who work as virtual employees to meet development requirements with less overhead and risk. It's a more reliable way to hire and retain quality software developers.

Since 2008, delaplex has built a trusted reputation developing mobile, cloud, and commercial application software for sale by vendors (ISV), and "software-centric" companies that depend on continuous software development to drive revenue and growth.

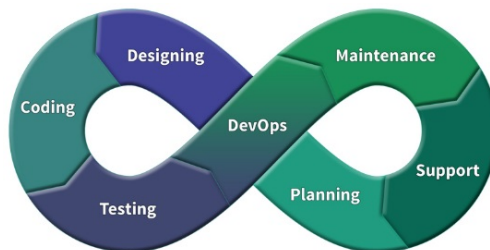

Clients include firms across an array of industries including telecommunications, healthcare, media/publishing, hospitality, entertainment, manufacturing, and energy. They have all come to recognize that delaplex offers the technical expertise and product experience they need to better compete in today's markets.

Headquartered in Atlanta, Georgia with ISO 9001:2008 certified and HIPAA compliant facilities in Nagpur and Pune, India, delaplex provides a globally-blended, service-based approach to innovative software development.

Reliable and Dedicated Resources to Build, Test, Rescue, Deploy, & Maintain Code

delaplex offers flexible service options designed to operate together seamlessly or standalone as needed to improve your operations and accommodate your business objectives.

- Your Dedicated Team of Technology Experts
- Seamless Service Options and Interchangeable Skillsets
- Better Quality Software with Faster Time-to-Market

The delaplex Service Infinity™

*delaplex is
your competitive edge*

- Dedicated team members know your vision
- Flexible resources adjusted with your needs
- Results focused on your business value
- Virtual employees – less overhead and less risk
- Reliable solution for fixed development costs
